## **About the Workers' Compensation Trust...**

Based in Wallingford, Connecticut, the Workers' Compensation Trust program is designed to meet the unique needs of the Connecticut healthcare industry. The Trust was formed in 1981 for the sole purpose of providing a cost-effective alternative to the traditional insurance market for healthcare employers in the State. As an Employer Mutual Association, the Trust has been able to return over \$18,200,000 in premiums back to members as a result of our successful efforts in controlling the cost of workers' compensation claims.

The Trust membership consists of over 330 employers representing over 50,000 employees in healthcare sectors, such as: ambulance companies, assisted living centers, charitable organizations, home health agencies, hospitals, group homes, long term care facilities, medical services, personnel agencies, rehabilitation centers, retirement living centers, school for mentally, physically and emotionally challenged, and visiting nurse services.
